

The Formentera Council Office of Mobility is issuing a reminder to islanders that passes for la Savina's “regulated” street parking must be renewed annually. Department head Rafael González referred drivers to the receipt they got on renewing their pass last time. The current system replaces one which required pass-holders to demonstrate authorisation with a windscreen decal bearing an expiry date. Councillor González said the majority of passes were delivered in February and March.

Anyone wishing to renew his or her annual pass can do so in person at the Citizen Information Office (OAC) or via the office's online platform, OVAC. Last year the Council granted 4,400 individuals and businesses passes, which must be renewed one year after the date of issue.

Hours

According to the councillor, the winter timetable will be in effect through May 1. Under the present system, parking is metered Monday through Saturday from 9.00am to 2.00pm and Monday through Friday afternoons and evenings as well, from 4.00 to 8.00pm. On Sundays and bank holidays parking is free. In winter cars can be left in blue zone spaces up to three consecutive days. In summertime the limit is one day. Pass-holders can park in green zone spaces up to three days in winter. La Savina residents are given 15 days to park in the green zone, in both summer and winter. When the summer timetable comes into force in May, metered parking will be in effect from 9.00am to 9.00pm Monday through Friday.
