

The Formentera Department of Mobility announced today it was placing blue and green zone metred parking checks on hold for two weeks. The temporary suspension takes effect Monday and is part of a number of steps taken by the administration in response to the situation of national alarm around the Covid-19 crisis.

Mobility chief Rafael González said that from this Monday, 16 March, residents would have one more reason to stay indoors since tickets to leave vehicles in blue and green zone parking spots would be no longer necessary. Attendants will still do rounds to check for unauthorised vehicles parked in handicapped spaces or areas not fit for parking.
