

Today, 9 December, organisers began registering runners keen to participate in the 13th Formentera Half-Marathon or 8K Sant Ferran-La Savina fun run. In 2022 the race will resume its typical springtime place on the calendar, 14 May.

The current phase of "preinscriptions" isn't required for Formentera residents or individuals who have participated in five or more races in years past, both of whom have spots guaranteed. Residents should contact the Formentera Office of Sports while five-or-more-year veterans will receive an email with a code to access the platform and confirm their registration.

All other runners hoping to participate have from today to 10 January to complete a "preinscription" through the official race website at www.marato-formentera.com. At 12.30am on 12 January and in the presence of a notary, organisers will draw lots among "pre-inscribed" participants for 1,900 places in the Half-Marathon and one thousand places in the 8K race. Individuals selected in the drawing can then confirm their registration between 14 January and 7 February.
