

The Formentera Office of Commerce, which is spearheading the Strengthening Local Business Plan (*Pla per a l'enfortiment del comerç, PEC*), staged the first working group with sector representatives today. These meetings are part of a participatory work process in which Formentera businesses can provide input to help develop actions to revitalise and improve the commercial fabric of the island.

The first of the meetings was held today at the offices of Formentera's small- and medium-sized business group (PIMEEF) and attendees included representatives of Focalizza, the company at the helm of the project, as well as heads of municipal departments, PIMEEF and the Formentera Chamber of Commerce (CCF) and local tradespeople and artisans invited by PIMEEF and the CCF. Upcoming meetings will be held at the CCF headquarters and the Consell de Formentera.
