

Earlier today the Formentera Council and the Espai Dones association signed a deal laying the foundation of a partnership, valued at €3,000, «to promote equality and prevent gender violence», said Vanessa Parellada, councillor of social welfare.

According to the association's recently-appointed president, Dolores Tamargo, the accord will be crucial if Espai Dones is to continue to grow and achieve their antiviolence targets. The group expects to announce its activities programme for International Women's Day (8 March) next week. The programme, she said, will extend into April and be both educational and fun. She described it as «an array of actions that put the spotlight on gender equality and women's rights».

Since its creation, Espai Dones Formentera has used events like International Working Women's Day (March) and International Day for the Elimination of Violence against Women (November) to promote its message of equality. This is the fourth year of the partnership between the Council and Espai Dones.
