

The Formentera Council Office of Social Welfare is pleased to celebrate five years of operations at the island's day centre. More than a hundred people took part in the various events commemorating the Formentera Day Centre's fifth year. Local group Aires Formenterencs took on the task of providing music for the celebration, where users, families and friends were all welcome.

After the concert, guests were treated to drinks and hors-d'oeuvres prepared by students of the cooking and restaurant programme at Marc Ferrer secondary school. Celebratory activities will carry on Wednesday April 27, as the hall of ceremonies in the day centre hosts the opening of an exhibition of old Formentera photos, *Fotos antigues de Formentera: Ses Salines*. The exhibit is part of the bank la Caixa's initiative for the elderly, programa 3.0. On Thursday April 28, organisers have scheduled a talk about Alzheimer's and other forms of dementia and, on Friday April 29, the week-long celebration will wind down with an open-house day of activities for the centre's users and their family members.
