

The Formentera Council's social welfare office reports that Thursday December 13 from 8.00pm the Casal d'Entitats will host a discussion on the place of emerging technologies in our homes.

The gathering, which organisers hope is of use for parents who are overwhelmed or perhaps just a bit disoriented, will concentrate on ways to use new tech to assist in children's learning process. Technology is here to stay, and it is an immensely powerful tool, too, not to mention an incredibly useful one in children's education.

The talk will be moderated by Belén Alvite, educator and director of the Centre for the Study and Prevention of Addictive Behavior (CEPCA) and Pilar Daviu, police liaison officer.
