The Formentera Council Office of Education has announced an extended deadline on pre-enrolment for the 2016-17 year at Formentera's municipal music and dance school. The added dates —from the first of the month to September 10— affect in-person registration at the Citizen's Information Office (OAC) as well as online signups on the Virtual Citizen's Information Office (OVAC) and the music school's homepage.

The school of music and dance offers both accredited and non-accredited courses of study in addition to workshop-style music and dance classes for children three and up. Last year roughly 300 people took classes at the school.
