The Formentera Department of Education reports that this year, enrolment at the island's two escoletes will be conducted virtually. The order came from the regional education ministry and will also apply to signups at all early-learning, primary and secondary schools—a measure aimed at preventing groups and reducing social contact amid the Covid-19 crisis.

For ages zero to three, registration begins 14 May and concludes 5 June in a process that will take place on GESTIB, an online platform which parents and guardians can access with a password or via an authentication procedure on CL@VE. The information is available here in Catalan and
here
in Spanish.

Children who have already attended classes and are thus already enrolled can skip the process. Questions can be addressed via email at escoleta@conselldeformentera.cat or over the phone, 9.00am to 2.00pm, at 971.32.34.15.
