

Today Ana Juan, president of the Consell de Formentera, and Juan Manuel Costa Escanellas, local delegate to the Chamber of Commerce, signed a collaboration agreement under which the Consell will provide €10,000 to promote commercial training, market research and communication on the island.

This agreement constitutes a reinforcement of the Consell's support for Formentera companies, and trade in particular, to promote training activities and encourage new entrepreneurs to start their business project. With this agreement, the Chamber plans to carry out language courses, day-long workshops in customer service, management and window dressing, and training in new technologies.
