

With an end toward distributing €13,000 in available funding, the Formentera Council's office of social welfare has put out a call for subsidy applications from cultural centres, immigrant groups and other non-profits on the island.

The point of the subsidies is to make it easier for associations and other groups to put in place projects and activities that serve the local immigrant population and promote its integration into the community.

Recipients will be determined by a competitive review of applications, the deadline for which is 29 June. In 2014 the following groups received assistance thanks to the initiative: l'Associació Cultural Andalus de Formentera (€4,000), l'Associació de la Festa Intercultural de Formentera (€4,000), la Casa Extremeña de Ibiza y Formentera (€2,475) and la Asociación Al Magreb por la Integración (€360).
