

The Formentera Department of Island Services announces that from tomorrow children's parks across the island will reopen in line with safety protocol published in the Balearic gazette as part of an order, 4/2020, issued by the regional premiere.

Per the order, the Consell de Formentera will remove the barriers that restricted access to parks tomorrow. Municipal crews are performing a targeted cleaning of the areas today.

Two daily cleanings —in the morning and afternoon, per the order— have additionally been scheduled going forward, with instructions to focus particular attention on high touch surfaces.

Signs have gone up advising islanders of the main Covid-19 preventive measures, emphasising hand washing, respiratory hygiene and physical distancing.
