

By way of the administration's office of infrastructure, the Council of Formentera has seen to the repaving of carrer de sa Màquina (sa Màquina street) and carrer de s'Estany des Peix in La Savina and carrers Diputat Marià Serra and Eivissa, both in Sant Francesc Xavier.

This Saturday, 11 April, the stretch of carrer Pla del Rei running from carrer Eivissa to carrer Ramon Llull will also be repaved, thus averting perennial problems of rainwater overflow and others that stem from street cleaning operations.

Monday, 13 April, maintenance crews will face the task of painting markings on the newly repaved segments of road, differentiating between automobile and scooter parking and load and unload zones.
