

This week the Formentera Office of Equality is conducting trainings and work sessions for islanders, Consell de Formentera staff and policy makers. These actions are part of the Sexual, Family and Gender Diversity Plan and the programme for Pride Day.

Today it was the turn of Consell personnel and tomorrow Thursday 30 June, at 5.00pm, a working session for citizens will take place in the plenary hall of local government. The Consell is currently working on the island's first Plan for Sexual, Family and Gender Diversity. The overarching goal of this technical proposal is to develop a report to promote equality and stop discrimination of LGTBI people. Participants will help to ensure a plan that is tailored for Formentera. To sign up or ask questions, contact igualtat@conselldeformentera.cat .
