The local development division of the Formentera Office of Commerce, Entrepreneurship and Equality is pleased to report that three qualified candidates have been recruited for one-year positions as early-childhood educator, equality manager and environmental engineer as part of "SOIB Jove: Qualificats - Entitats Locals 2022", a programme that affords young recent graduates the chance to gain work experience in their specialty in the world of public administration.

This SOIB programme, which has received funding from the European Social Fund (ESF), the Youth Employment Operational Programme 2014-2020, and the Sectoral Conference on Employment and Labour, has a total budget of €203,947.40. Since 2016 the Balearic government has backed this employment initiative that works with local entities to offer training contracts and professional experience to qualified young people.
