

Councillor of Culture Susana Labrador met today with the director general of inter-administration relations, Miquel Àngel Coll, to begin coordinating work on the events programme for the Balearic Islands Day (*Dia de les Illes Balears*) on 1 March. Part of an effort to make festivities reflective of diverse interests across the archipelago, recent years have seen the regional government encouraging island councils to take an active role in planning.

The Consell de Formentera and Govern balear will strike a collaborative agreement about programming that promotes a regional identity while still honouring the distinctive qualities of each island. Councillor Labrador welcomed the visit from Director General Coll and pledged that Formentera's local government would "cooperate to ensure that this year's programme is a complete one, and that there's something for Formentera residents".

Staff from the local and regional administrations were also in attendance at the gathering.
