

The Formentera Council's Office of Infrastructure and Mobility report that Monday, February 19, repairs and upgrades will be performed on several points across Formentera's network of arterials.

In la Savina crews will repair a raised pedestrian crossing on highway PM-820-2, goes towards Illetes. Likewise, in es Ca Marí they will not only repave the road surface and tackle assorted flaws, but they will also reposition a speed bump. Upgrades and action to strengthen the road surface are also in the works at several points along the Porto-Salé road. A range of road work is planned for the es Mal Pas road as well, as is the replacement of a speed bump near the bar in es Cap.
