

The Formentera Council's mobility department announces the opening of a new parking area in the school zone in Sant Ferran. The 1,200-square-metre lot has room for roughly 40 vehicles and is located at the intersection of carrer Tarragona and the main highway.

Mobility chief Rafael González described it as “a supply of available parking on the east side of avinguda Joan Castelló i Guasch while work on the remodel is under way” and “a way to facilitate parking when classes in Sant Ferran begin and let out”.

González called attention to the large stock of parking spaces at the other end of the avenue alongside the ring road. The Formentera Council is renting the land where the new car park sits for €500/month (VAT included).
