

15-minute parking spots at port of La Savina

Thursday, 25 June 2020 13:27

The Formentera office of mobility reports that the parking lot adjacent to the La Savina harbour has been equipped with thirteen 15-minute spaces for ferry traveler pick-up and drop-off. Motorists can use the spots from today, and although they will soon be marked as blue zone spaces, rules will not be formally observed until enforcement of metred parking resumes across the island on 1 July.

Available to all without exclusion, free 15-minute passes can be obtained at nearby blue zone parking metres, a system which was designed to encourage frequent turnover. The Consell and Balearic Port Authority opted to implement the new spaces after determining that such short-term parking was a necessity at La Savina's port.
