

For the schoolchildren of Formentera, the administration's Office of Sport has coordinated an all-island field day at the municipal sports pitch, part of the activities programme celebrating World Children's Day.

The 650 six- to twelve-year-olds enrolled across the island's three primary schools, in Sant Francesc, Sant Ferran and la Mola, participated in the event, which took place during school hours.

The idea, says councillor of sport Jordi Vidal, is “for children to come together and play in a way that promotes fitness and companionship between pupils of the island's different schools”.

To get there, organisers have put together a series of activities revolving around socialising, cooperation and integration. Councillor Vidal thanked Formentera schools and the Balearic federation for inclusive play for their collaboration.
