

When Consell de Formentera president Alejandra Ferrer sat down today with Toni Roig, president of hometown football club SD Formentera, the two put their signatures on a deal regarding the right to use, and the authority to manage, some of the facilities at the municipal pitch in 2020. Paula Ferrer, the island's consellera of sports, was on hand at the signing as well.

Under the terms of the deal, the Consell de Formentera authorises SD Formentera to make use of all but the Casal d'Esport, athletics track and north goal storage shed on the pitch.

Meanwhile, SD Formentera pledges to facilitate access, use and enjoyment of the areas in question to local sports associations and other groups whose need for sports facilities has been approved by local government.

SD Formentera promises to oversee upkeep and cleaning of the pitch, a service the Consell de Formentera will compensate to the tune of €14,900.
