

The Formentera Environment Department and Plastic Free invite islanders this December to stage plastic rubbish hunts in small groups—pick a spot, a beach, a road, an area of woods...and pick up discarded plastic. Or mark off a smaller spot on a beach and do a micro-plastics pick-up. Participants can share what they do on social media with the hashtag #adecemberwithoutplastic (#undesembresenseplàstics). Visit the Formentera Environment Department for clean-up material like rubbish bags and gloves.
