

In recent days and till month's end, a Formentera Environment Department push to curb spread of pine processionary pest is getting a boost from hunters who are turning their guns on nests in hard-to-reach pine tree branches. The Consell has over 5,000 ammunition cartridges to be used to this effect.

For more information visit the FED (Àrea de Medi Ambient) at carrer Mallorca, 15 (baixos) in Sant Ferran de ses Roques; call 971 32 12 10 ext.1 or send an email to mediambient@consell deformentera.cat .
Islanders can likewise contact the healthy forests division of the Balearic government on their website
, or by phone (971 17 66 66) or
email
.
