The Formentera Office of Tourism is pleased to present a new edition of "Discover Formentera in October", a campaign to attract visitors with deep discounts on ferry tickets, car rentals and accommodation and other low-season perks.

Alejandra Ferrer, vice president and councillor of tourism, encourages visitors to come and enjoy Formentera "at a time when you can get to know it more calmly". She described October was a time when visitors could be "in closer contact with residents, our island's hosts", and "when nature and beaches can be visited with tranquillity".

As part of Gastronomic Weekends, the first and second weekend of October, several local restaurants will offer traditional fare fused with new creations at a fixed price of €25 (drinks not included).

Other featured programming includes Festes del Pilar de la Mola (12 October), Formentera Zen (14 and 16 October) and sporting events like Formentera Triathlon (1 October), Pujada a la Mola (12 October), 2022 BTT La Mola (23 October).

The idea is simple: tourists staying at participating hotels and establishments receive a voucher for discounted ferry tickets and special offers on associated activities and at active tourism companies. Click here for complete up-to-date information.
