

The Formentera Council's Office of Social Welfare has put together a set of activities to break through to the island's young children and teenagers about the realities of life for refugees.

From 5.00 to 7.00pm today, the Sant Ferran de Ses Roques primary school will play host to an afternoon of games and activities exploring some of the issues facing individuals who have been forced to flee their homes. On Tuesday, June 20, for World Refugee Day, the island's youth centre will stage a screening of "My Friend," a documentary that recounts the unrelenting travails of Afghani women struggling for a voice and a say in their fates.
