

The Formentera Department of Youth is pleased to report that the municipal summer camp programme got under way on Thursday 1 July with the theme “Som artistes” (We’re artists). Two hundred seven 3 to 12 year olds signed up to take part in Escola d’Estiu 2021, which will play out in the three schools of Sant Francesc, Sant Ferran and la Mola.

“It’s about offering alternative leisure and educational activities for the island’s school-age boys and girls, while helping households strike a work-life balance”, explained department chief Vanessa Parellada.

The councillor thanked local families for their trust in the service, not least considering that for the second year running, the summer programme will be held in line with health and safety protocol stemming from covid-19. Parellada also praised the team of two directors and twenty-two activity leaders “for their dedication to ensuring the school is adapted to kids’ needs”.

This year as last, tuition help exists for families affected by the coronavirus crisis. The Escola d’Estiu is weekdays 8.00am to 2.30pm and runs until 31 August. Activities and logistics will be adapted to health and safety protocol.
