

The Formentera Council extends its congratulations to architect Elías Torres, who received Spain's national architecture award, Premio Nacional de Arquitectura, for 2016. The Ministry of Public Works and Transport's accolade went to the Martínez Lapeña-Torres firm, which Torres shares with Tarragona native José Antonio Martínez Lapeña. The award is a celebration of the professional careers of the two men, who engineered local monuments like Jardí de ses Eres and Centre Gabrielet.
