

The local works brigade, a division of Formentera's Department of Island Services, began efforts to paint and perform general repairs and maintenance at the Jardí de ses Eres park in Sant Francesc. Workers will be covering up graffiti, repainting walls and patching up minor cracks and holes. The Ferrovial company has been tapped to cut back overgrown plants and oversee general maintenance of planters.

Efforts remain under way to repave local roads. On Monday workers from Islasfalto will apply a new coat of asphalt to a section of Camí de ses Vinyes in Sant Ferran, requiring crews to close the arterial to vehicle traffic all the way to the roundabout. Access from the Es Pujols side will not be affected.
