

24 May, Simona Colzi will return to Centre Antoni Tur "Gabrielet" with "Madre Tierra", an exhibition of textile art with which the artist shares her creative methodology to raise awareness about environmental preservation. The display centres on the plants, flowers, roots and minerals used by the artist for natural dyes, and the way she prepares the fabrics, as well as art pieces like small- and large-format paintings and tapestries.

The exhibition will be on view from 24 May to 2 June, Monday to Sunday, 10.30am to 2.00pm and 5.00pm to 9.00pm.
