

Welcome to the website of the Consell de Formentera, a space open to islanders and everyone else keen to learn more about the services offered by this administration.

Our goal is to give visitors to this site an easy and transparent pathway to information, including tools to access services and present queries. Services must be close, accessible and adapt to resident needs if we hope to deliver on the objectives of transparency set this legislature with approval of our code of ethics and good governance.

Formentera is a diverse and plural island, with a committed community of residents representing an array of social, cultural and environmental concerns which demand immediate, up-to-date and easily accessible information.

The Consell de Formentera website and social media handles are an open door to share, listen, interact and respond to the needs of islanders. This is our vision and the driving force behind our efforts to make Formentera accessible and approachable, digitally as well, to everyone.
